

# ENCOUNTER™ POWERBENCH

Height-adjustable Benching Solution

**AIS**

## ENCOUNTER A WORLD OF POSSIBILITIES

An agile powered spine + height-adjustable worksurfaces? It's a match made in heaven. Encounter PowerBench unites the PowerBeam platform with the ergonomic support of an adjustable-height benching system. Add a light, modern aesthetic with an optional metal H-leg base, painted in your choice of colors for a subdued or vibrant look.

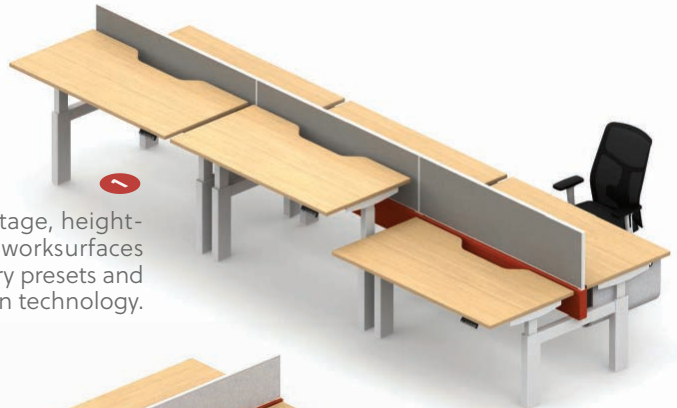

**ENCOUNTER A PLACE  
WHERE YOU BELONG**

A simple, succinct kit of parts solves for space optimization and collaboration needs in one fell swoop. The legs can be concealed by an optional enclosed laminate base to provide continuity across the floorplate, create an upscale, permanent look, and give workers a strong sense of place in an ever-changing workplace.

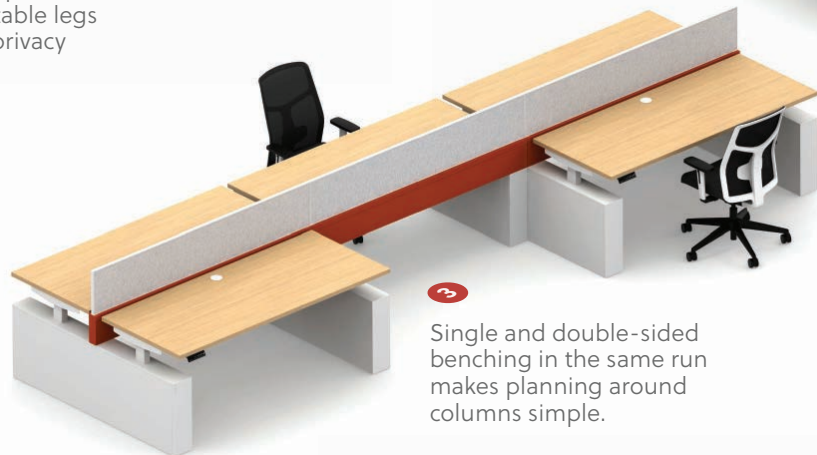

2 The laminate base option hides height-adjustable legs and can serve as a privacy end panel.

1 Two-stage, height-adjustable worksurfaces feature memory presets and anti-collision technology.

1 With PowerBeam, specify gallery panels to enhance privacy and hide cords.

3 Single and double-sided benching in the same run makes planning around columns simple.

8 Calibrate Storage serves a dual purpose, supporting PowerBeam, while providing personal storage.

4 Single-sided PowerBench works in small spaces.

9 PowerBeam supports highly flexible spaces where teams can roll up, plug-in and reconfigure with ease.

5 Pair with pantry towers for personal storage and additional privacy.

6 Use 120 degree layouts to create more workspace area with fewer legs.

10 Place fixed or height-adjustable tables perpendicular to PowerBeam to make the most of your space.

## ENCOUNTER YOUR WORKPLACE CHOICES

PowerBench offers an all-in-one solution of height-adjustable worksurfaces + power that's simple to spec, while PowerBeam provides more flexibility for agile, freestanding configurations and perpendicular work stations.
